

Q5

Your challenge:

PR 24 investments require leaders of change in water companies to be resilient and adaptable.

"...given the scale of the task, there has to be a real change in how companies deliver outcomes. That means new ways of working and innovative new solutions"
(Ofwat at Future of Utilities: Water in 2023)

Leading Transformation in Water

Empower your leadership potential in just one day!

Our workshop offers Transformation Leaders a chance to refresh their expertise and engage in collaborative discussions on driving impactful change. Dive into your real-world challenges and initiatives, sharing insights and strategies to amplify effectiveness. Step forward confidently, armed with refreshed knowledge and newfound inspiration to lead your organisation during AMP8.

Your delegates will come out knowing how to...

Master change dynamics

"Q5 are brilliant at what they do. A brilliant programme led by brilliant, and really nice, people. I would do another programme with them tomorrow."

Programme sponsor,
University of Surrey

"The Q5 team are top notch. Possibly the best session I have been fortunate enough to attend. Today I can be a better leader for my team."

Logicalis Leadership Academy, 2018

"The masterclasses were very engaging and allowed me to connect with my colleagues in a way that I had never done before."

Leadership Programme,
2020 with global consumer goods business

"One of our responsibilities is to create the future leaders... I feel that through this program we have helped to do this."

Platform CEO,
Mubadala Investment Company
